What they say about us 😊

There are very few designers making large scale stencils, and no one, absolutely no one, is making them as beautiful and innovative as DECORAMA! If you want art that looks unique and completely hand done, but with the ease of fast production and non contrived, then look no further.

Absolutely brilliant, creative and beautiful!

Kathy Van Gogh - CANADA

Very good products, I was able to choose from a large selection. Stencils are very varied and can be used in many ways.

VARJAS ART - Judit Varjas - UNGHERIA

The stencils N1. for me !!!

Andrej Pregelj - SLOVENIA

The extensive range and quality of stencils available at Decorama is outstanding. I have searched far and wide to find such a great supplier of products that can meet the demands of venetian plaster products. The products are both rigid enough and flexible to allow me to use a broad range of Venetian products and get the results I need. I am looking forward to purchasing more designs to wow my clients

HAUS CREATIVE - Allison Lewis - REGNO UNITO

"My love and passion for my work, creative wall and floor design, working with natural grouts in connection with the fantastic stencils of Decorama, makes me smile every day"

Renate Hainz - GERMANIA

From The Art Of Restyling, I wanted to thank you for the speed with which you sent me your products; I found the stencils of excellent quality, both for sturdiness and for the precision of the design. It adheres perfectly to the surface, such that a small flap of paper tape was enough to fix it and therefore be able to work in complete comfort 😊 Excellent yield and the value for money is unquestionable 😊 We will definitely be back to place new orders. Thank you, a hug Sara.

THE ART OF RESTYLING- Sara Porcelli - ITALIA

**A company with 30 years of history that operates in 30 countries around the world.
A company that bases its strength on people by training its collaborators, sharing experiences,
constantly enriching its catalogue.**

With the collaboration of our graphic designers, we produce and market products with a very high added value at an attractive price. We believe we can make the difference on the project of a large company as well as of a small craftsman. We create with our customers the processes necessary to make their business evolve, producing with high-tech machines.

Our Stencils are produced with high-thickness quality PVC films with laser-guided machines. This allows us to have a well-finished product in all its details, checked several times up to the packaging which is carried out in bags and hangable transparent PVC tubes.

We have also thought about how to help our customers to transport our Stencils with care by having a Stencil Bag specially produced and made to measure.

The final product guarantees our customers quality, resistance and practicality.

They can be employed with; Decorative paints, raw lime, microcement, material pastes, liquid metal and any type of paint.

INSTRUCTIONS

PAINTBRUSH

Use a large, round stencil paintbrush with short and dry bristles. Dab the paintbrush into the paint and wipe off the excess paint with a kitchen paper sheet, keeping the brush at right angles to the surface, apply the paint onto the surface. Another technique is to paint the decoration always starting from the edge, using light circular movements, first clockwise and then counterclockwise. It is recommended to practice this technique first, on a paper, or any other type of surface, to better learn this technique first.

SPONGE OR SPONGE BRUSH

Use a sponge or sponge brush, wet it in the color, wipe off the excess paint with the help of kitchen paper. Start dabbing the surface, being careful to paint all the spaces.

ROLLER

Use a small roller (8-10cm/3-4inch.) better if made in sponge instead of cotton. Wet the roller in the paint (you can use a plastic or paper support to use it as a palette), remove the excess paint on a sheet of kitchen paper and then paint the surface in the colors you prefer.

TECNQUES

COLOR EFFECT

If you make frames or friezes on a wall, mark 1 reference points. Position the mask and decorate with color Choice. If you decorate with the stencil brush, use a little undiluted color, starting from the sides of the drawing with circular movements clock wise. To strengthen the colour, go over in the opposite direction. The swab technique can also be used (always with a brush). Finally clean the mask with a damp cloth and put it away in the same envelope. Clean the brush with soap and water.

AGED EFFECT

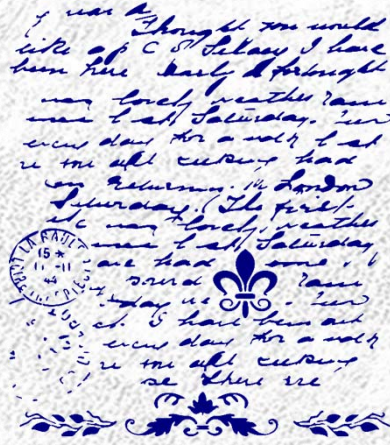

Test on paper. To create an aged effect dab the stencil evenly creating a shade clear background. Leave to dry. Review on parts you want to darken.

LIGHT DARK TECNIC

Paint with a primer color all the empty spaces to create the shadow. To leave dry. Move the template 3-5 mm. toward up or down or from left to right. Apply a second color (same as the first but with different shade) on all empty spaces.
